- Completed High School - 2019
- Brazilian Portuguese - Native
- English - Proficient/Fluent (C2)
September 2023
EF SET Certificate

Personal

Motivated by a passion for technology and creative processes, I chose to become a Full Stack developer. This journey combines my passion for problem-solving, continuous learning, and my fascination with both Front End and Back End development. An interesting tidbit: I adore cinema, music, and illustration, marveling at the impactful moments they create, which inspire my own creative pursuits.
